What is the Future City Competition?

The Future City Competition is held nation-wide to challenge middle school students to envision, design, and build a sustainable, technologically advanced metropolis for the future, tackling a specific annual theme (e.g., climate change, food systems) by creating a scale model from recycled materials, writing an essay, developing a project plan, and giving a presentation to STEM judges, fostering teamwork, engineering, and urban planning skills.

This Year's Theme for 2027:
Fire Resilient Future

Design a resilient future city that can prevent, protect, and recover from urban wildfires.

Volunteer with us!

We are always looking for volunteers and mentors to work with the school teams from September to January, special award evaluators, competition judges (essay, models, and presentation/Q&A), and general competition support.
